MERLOT

Multimedia Educational Resource for Learning and Online Teaching at http://merlot.org

The MERLOT system provides access to curated online learning and support materials and content creation tools, led by an international community of educators, learners, and researchers.

MERLOT Announces the 2023 MERLOT Peer Reviewer Extraordinaire Award

MERLOT created the Peer Reviewer Extraordinaire (PRE) Award to honor the hard work and generous contribution of MERLOT community members whose time, energy, and enthusiasm support the MERLOT mission to make high-quality educational resources openly available to learners worldwide.

MERLOT relies heavily on Peer Reviewers to support continuous expansion of the MERLOT collection and to perform Peer Reviews of the collection's numerous and varied resources. The following individuals have worked with the MERLOT Editors and MERLOT Editorial Boards to develop at least 15 peer reviews within the past 12 months, and each individual also has contributed a minimum of 5 materials to the MERLOT collection during that period.

Congratulations to all of our 2023 Awardees!
